

Uncle Dan From Democrat River

Dear Mister Editor:

In another 10 day or so the Democrats will be gitting together at Los Angeles to pick a feller they hope can make it all the way to the White House, Judging from the number that's got their hat in the ring, they'll have to hurry to get their name in time to get his name on the ballot in November.

The Republicans is holding their two weeks later on accounts of not having so many hopefuls and not needing so much time. But Democrats or Republicans, they is a saying in the Bible that fits both conventions. "Wherever the carcasses lie, there will the eagles be gathered together." The Republicans, Democrats and Republican, will be on hand hoping to split the spoils for another four year.

It could be that we'll have to run the country the next four year without a Vice President. Up to now there ain't nobody in neither party that'll admit to take the number two spot. But if things runs true to form, they'll have to best 'em off with each other after the top man is nominated. On second thought, Mister Editor, I think I'll have a Vice President on both tickets.

The fellers at the country store Saturday night was gitting the convention fever in their blood and we conducted the session sorter after the convention lines. I polled the delegation and come up with several items that might interest the candidates. Everybody seemed to be in favor of money. From there on out there was a difference of opinion. Ed Doolittle made several attempts to get the floor but he couldn't give a satisfactory answer to the question, "For what purpose does the gentleman rise?" and he sat down.

One feller suggested a cou-

ple planks for both platforms. He favors returning the nickel to a position of reasonable importance, and he wants a higher tariff on hemp, said it would mean better cigars.

Hook Hoom was in favor of a plank making all insurance companies furnish a magnifying glass with every insurance policy. The fellers voted this amendment down on the grounds it would be easier on the eyes to make 'em use a heap bigger type.

The chair recognized one feller for the purpose of reading a resolution. He resolved that in the coming convention a delegate be thrown out of the hall if the television camera caught him reading a racing card while some orator was expounding on the great deeds of the party.

The clerk will now call the roll.

Yours truly,
Uncle Dan

IT ONLY FEELS LIKE POWER STEERING

(Corvair doesn't need it)

Corvair's ingenious design simply places the engine in the rear. That means less weight on the front wheels and a lighter, happier feel in the curve of your hands. No power assist is needed in a car that's naturally nimble. See what a fresh engineering approach can do? From handling and parking ease right on, there just isn't anything ordinary or

conventional about Corvair. Look at its practically flat floor, four-wheel independent suspension, fold-down rear seat. Its air-cooled engine that never needs water or anti-rust or radiator repairs... and leaves engine heat and noise back where you've been. All these special advantages are standard in every Corvair. Just wait till you see how much

they add to your driving pleasure. But why wait!
